To: All Soil and Water Conservation Districts in Area 1

Unfortunately, the 2022 Area 1 Conservation Awards Banquet has been cancelled due to lack of participation in the Conservation Awards Program. We simply did not have enough entries to justify the time and expense that goes into hosting the banquet.

The Conservation Awards Program is a great opportunity to showcase the outstanding conservation work that goes on day in and day out not just across Area 1, but across the entire state of Texas.

We realize that putting together the entries takes a lot of work, but believe the benefits far outweigh the work that goes into the production. We would like to utilize every opportunity we have to recognize the work of producers and students in our area.

We will be working with local conservation districts to recognize Area 1 poster and essay winners as there were entries in these three categories. We want to recognize the students that worked hard to submit entries.

We hope that your SWCD will make plans to participate in the 2023 Conservation Awards Program, so that we may all work together to recognize the conservation leaders in our area, and to support this outstanding awards program in the future.

Please do not hesitate to contact either one of us if you have questions or would like to discuss this issue in greater detail. Roy can be reached at 806-893-2830 and Scott at 806-753-7047.
