If your district chooses to participate the Conservation Awards Program in any or all categories at any level, the district must contribute financial support to the program through the Association of Texas Soil and Water Conservation Districts (ATSWCD). Please reach out to the ATSWCD at 254-778-8741 with any financial questions relating to the Awards Program.

Each district with a state winning entry is responsible for costs associated with transporting and housing state winners in order for them to attend the Awards Luncheon at the Annual State Meeting in September 2026.

We appreciate the past support and participation that districts have demonstrated for the Conservation Awards Program. In addition, we are proud of the opportunity to continue with this program and encourage you to continue recognizing conservation leaders in your district.

Please review the 2026 Conservation Awards packet carefully. If you need additional materials or require assistance, please do not hesitate to contact your field representative or send an email to <a href="mailto:awards@tsswcb.texas.gov">awards@tsswcb.texas.gov</a>.

Thank you!
