

2027 Conservation Awards Program Packet

The 2027 Conservation Awards Program Packet can also be found here:

<https://tsswcb.texas.gov/programs/public-information-and-education/texas-conservation-awards-program>

Please note that NACD has released the theme and theme description but has not released any theme resources and does not have a timeframe as to when those will be available. I will share those with you all as soon as I get ahold of them. I am attaching the email that NACD just shared yesterday, so you can have access to all of the same information that we have.

Additionally, you will see that we have added text about an online submission option for the Teacher, Wildlife, Rancher, Farmer, SWCD, Forestry and Friend categories. We will email out the instructions for online submissions by November 1, 2026.

If your district chooses to participate the Conservation Awards Program in any or all categories at any level, the district must contribute financial support to the program through the Association of Texas Soil and Water Conservation Districts (ATSWCD). Please reach out to the ATSWCD at 254-778-8741 with any financial questions relating to the Awards Program.

Each district with a state winning entry is responsible for costs associated with transporting and housing state winners in order for them to attend the Awards Luncheon at the Annual State Meeting in September 2027.

We appreciate the past support and participation that districts have demonstrated for the Conservation Awards Program. In addition, we are proud of the opportunity to continue with this program and encourage you to continue recognizing conservation leaders in your district.

Please review the 2027 Conservation Awards packet carefully. If you need additional information or require assistance, please do not hesitate to contact your field representative or send an email to awards@tsswcb.texas.gov.

Thank you!

Molly Christensen
