

2024 CONSERVATION AWARDS PROGRAM

If your district chooses to participate in the Conservation Awards Program in any or all categories at any level, the district must contribute financial support to the program through the Association of Texas Soil and Water Conservation Districts (ATSWCD). Please reach out to the ATSWCD at 254-778-8741 with any financial questions relating to the Awards Program.

Each district with a state winning entry is responsible for costs associated with transporting and housing state winners in order for them to attend the Awards Luncheon at the Annual State Meeting in October 2024.

We appreciate the past support and participation that districts have demonstrated for the Conservation Awards Program. In addition, we are proud of the opportunity to continue with this program and encourage you to continue recognizing conservation leaders in your district.

The 2024 Conservation Awards packet can also be found online on the TSSWCB website at: <https://www.tsswcb.texas.gov/programs/public-information-and-education/texas-conservation-awards-program>

Please review the 2024 Conservation Awards packet carefully. If you need additional materials or require assistance, please do not hesitate to contact your field representative or send an email to awards@tsswcb.texas.gov.

Thank you!
